LATE TELEGRAMS.

Parliament.
London, August 2.—Mr. Balfour has
stated that the Autumn Session commences
on 16th October.

English Cricket.
All the cricket matches have been
drawn.

The Australians scored 580 for six
wickets and declared their innings at an
end. Noble made 284 and Armstrong
made 172, not out. 428 runs were added
for the sixth wicket. The previous wicket
record was 411. Sussex went in and scored
185, of which 120 were for one wicket.
[The heavy scoring on the Brighton
field, the easiest scoring ground in Eng-
land, is not a record. In August, 1898,
Down and Threlkeld going in first for
Yorkshire against Derbyshire made 534
before they were separated.]

Football in India.
Calcutta, August 2.—The final round
of the Indian Football Association Chal-
lenge Shield competition was played off
this evening in the presence of an enor-
mous gathering of spectators, with-
standing the inclement weather, and the
flooded state of the football field. The
contestants were Duhousie Football Club
and the team of the 33rd Highlanders.
The ground was simply a swamp, but both
teams fought gallantly and some pretty
play was witnessed. In the first half
neither side was able to score, but in the
second half it was soon evident that the
Duhousie team were tired out, and taking
advantage of this the Highlanders made
several splendid rallies and eventually they
won the Shield by three goals to love. At
the start, the batting on the teams was level,
and the utter failure of Duhousie to score
caused some surprise.

The Employment of Lascars.
Simla, August 1.—A Resolution of the
Government of India is published which
modifies the regulations hitherto in force
prohibiting the employment of lascars on
voyages to ports on the East coast of
America, north of 38 degrees North latitude
in winter. As now ordered lascars may be
sent as far north as 43 degrees North lati-
tude on the coast in question provided they
are employed solely between decks in the
engine and stoward's departments and have
voluntarily entered into special agreements
to proceed so far.

The N. W. Frontier.
A dispatch by Major General Egerton
on the part taken by the Waziristan Militia
in the recent Mahsud blockade operations
is published in the Gazette. General
Egerton cordially endorses the opinion ex-
pressed by the civil authorities as to the
excellent work performed by these recently
raised but already extremely efficient bodies
of tribal Militia, and states that the effec-
tiveness and gallantry displayed by them is
deserving of recognition by the military
authorities. General Egerton goes on to
mention the names of Captains A.
W. E. Knox and E. J. Finnis
for "favourable notice" in addition to
those of Major Harman and Captain
Ferguson Davis already referred to in des-
patches, adding: "I presume that the
native officers and rank and file whose
names are brought to notice will be dealt
with by the political authorities."
The Waziristan Militia, which form the
subject of General Egerton's despatch in the
current Gazette, have a very different part
in the recent operations having been raised
in close proximity to and to some extent
from amongst the very races under block-
ade. Though only raised just before the
operations commenced they served loyally
and efficiently throughout, taking an active
part in the fighting and themselves cap-
turing great numbers of the enemy's cattle.
The success they achieved is a good begin-
ning for the numerous bodies of Border
Militia which now play a very important
part in frontier policy.

Are you weak, tired, easily fatigued,
all-worn-out? If so, your system lacks
tone. Your system needs recuperating.
You need a good strengthening tonic.
When the system is in a depressed con-
dition, its resisting power is lowered and it is
an easy prey to disease. Germs may readi-
ly multiply upon the tissues, and most
serious results may ensue. The most for-
midable diseases may be easily contracted.
Stearns' Wine of God Liver Oil
is all that a true tonic implies. It is a
delicious wine representing all the mil-
lennium virtues of the best cod liver oil, and
of the best form of iron. It is reliable in
every respect. Nothing secret about it. It
is a scientific preparation based on scientific
research, and will produce results where
nothing else will. It increases the appetite,
improves digestion and stimulates nutri-
tion. Under its influence the food eaten
actually feeds the body. New blood is
made, new nerves built up and new tissues
created to replace the old, weak and dis-
eased ones. Whole families can be cured.
